

VALTINA CHILDCARE

Specialists in Childcare in Val d'Iserre

We can provide child care on the snow or off, for single children or groups. We will provide additional nannies according to the size and mix of the group. All our nannies are experienced but we can provide qualified nannies if you require.

All our nannies will come to your chalet or apartment to take care of your child in a familiar environment. Care days will be planned according to the child/children's individual desires and weather conditions.

We are happy to prepare midday meals from ingredients provided by the parents, or, as a special treat, arrange lunch out. Morning and afternoon snacks will also be provided according to the parents preferences for their children.
